VENDOR'S RESPONSIBILITIES

It is the Vendor's responsibility to meet the entire intent of these specifications. Vendors shall carefully examine the terms of this document and shall judge for themselves all the circumstances and conditions affecting their proposal. Failure on the part of any Vendor to make such examination and to investigate thoroughly shall not be grounds for any declaration that the Vendor did not understand the terms and conditions herein. The County of Oswego shall not be liable for any costs associated with the preparation, transmittal, or presentation of any response or materials submitted in response to the RFP.

It is the responsibility of each Vendor to:

- Examine the RFP documents thoroughly;

- Study and carefully correlate Vendor's observations with the RFP document;
- Examine available schematics and maps to become familiar with local conditions that may affect the proposal.

SPECIFICATIONS DISCREPANCY

Should a Vendor find a discrepancy in, or omissions from the specifications, requirements for contract, or RFP form, or be in doubt as to their meaning, the Vendor shall at once notify in writing the County Purchasing Director. Written instructions will be sent to all Vendors. All such addenda shall become a part of the contract and all Vendors shall be bound by such addenda, whether or not received by the Vendors. The County will not be responsible for any oral representations or instructions.

SCOPE PARAMETERS

If a Vendor identifies an additional element not included in this RFP, which in its judgment would be essential to accomplish the intended objectives as articulated in this RFP, the Vendor should identify this element in its proposal and explain in detail why the County should consider including this element within the scope of services. Conversely, if a Vendor identifies a task within the RFP that it believes could be modified or deleted without impacting the objectives of the RFP, the Vendor should provide an explanation as to why the task should be deleted or modified. The County reserves the right to accept or reject all additions, deletions or modifications recommended.

VENDOR’S QUALIFICATIONS & ELIGIBILITY

The County may make such investigation as it deems necessary to determine the qualifications and ability of a Vendor, and the Vendor shall promptly furnish the County all such information and data as the County may request for this purpose. The County reserves the right to reject any proposal where an investigation of the available evidence or information does not satisfy the County that the Vendor is properly qualified or able to carry out the obligations of the contract and to provide the services contemplated herein.

AWARD

The award will be based in part on an analysis of the following criteria: technical and esthetic qualities of the proposal, reliability, vendor’s ability and facilities to provide the service called for, evaluation of the vendor’s proper understanding of the County’s needs, and price. The contract shall be awarded to the responsible firm who best meets the RFP’s criteria in the opinion of the County.

Additional selection factors may be included under the SPECIFICATIONS section of this RFP.

The Vendor must provide unquestionable evidence of sustained capability of providing the services requested and proposed, such as can be demonstrated in existing or previous operations. The County may award a contract based upon the proposals received, without discussion of such proposals with Vendors. **Each proposal should, therefore, be submitted in the most favorable terms the Vendor can make to the County.** The County of Oswego does, however, reserve the right to request additional data or an oral presentation in support of the written proposal. Submission of a proposal does not automatically qualify a Vendor for a presentation. The County reserves the right to negotiate with all qualified Vendors.

The County of Oswego, in accordance with the provisions of Title VI of the Civil Rights Act of 1964 and New York State Executive Law affirmatively ensures that the contract will be awarded without discrimination on the grounds of race, creed, color, disability, martial status, age, sexual orientation or natural origin.

All proposals over \$5,000 are subject to final review and acceptance by the Oswego County Legislature before any award of contract may be made. Receipt of proposals by the County shall not be construed as authority to bind the County.

All proposals shall be firm for a period of sixty (60) days after the opening date in order for the County to determine which proposal best meets the public interest. The County reserves the right to extend said period.

At the discretion of the County, the successful Vendor must provide Letter of Commitment within thirty (30) days of acceptance.

COMMENCEMENT OF WORK

Upon execution and delivery of the contract and delivery of any required performance bonds, including the required Certificates of Insurance and the approval thereof by the County Attorney, the successful Vendor will be notified to proceed with the work of the contract. Such notification will be in the form of a letter to proceed from the County's Purchasing Office.

CANCELLATION

The County reserves the right to cancel the contract at will. If the Vendor fails to perform under the contract, fails to meet specifications, or fails to make satisfactory progress so as to endanger the overall contract performance, they may be determined to be in breach and the contract may be terminated by giving written notice to the Vendor of such termination and specify the effective date thereof, at least five days before the effective date of such termination. In such event, all finished or unfinished documents, data, and reports prepared by the Vendor under this contract shall, at the option of the County, become County property and the Vendor shall be entitled to receive just and equitable compensation for any work satisfactorily completed hereunder.

The Vendor shall not be relieved of liability to the County for damages sustained by the County by virtue of any breach of the contract by the Vendor, and the County may withhold any payments to the Vendor for the purpose of determining the exact amount of damages due the County.

The Vendor understands that the contract may be terminated due to non-appropriation of funds.

CONTRACT PERIOD

The term of the Contract shall be for one year from the date of execution by the County, and may be renewed for up to four (4) additional one-year periods on the same terms and conditions.

PRICING

All prices are to be lump sum and quoted firm against increase for the duration of the contract. Travel and incidental expenses cannot be separately invoiced. The County shall not be responsible for any additional costs.

METHOD OF PAYMENT

Payment shall be made at the contract price for the services provided and verified by the Oswego County E-911 Department. Payment schedule is negotiable for completed work. Oswego County does not pay in advance. Invoices shall be sent to the Oswego County E-911 Department, 39 Churchill Road, Oswego, NY 13126.

COSTS

The cost to perform these services shall be noted separately for each tower listed. (See Vendor Reply Sheet, page 14)

EXPERIENCE

By responding to this RFP, the proposer agrees that only an experienced tower rigger, trained and knowledgeable in the mapping of communications structures performs the actual work, and has not less than ten years of experience. No inexperienced climbers or journeymen will be used on this project.

INSPECTION

Inspection will consist of (but not necessarily be limited to):

- Exposed concrete foundations
- Weep holes
- Anchor rods above grade
- Earth / overburden – over anchor foundations
- Turn-buckles
- Pins

(continued next page)

- Clevises
- Safety wires
- Thimbles
- Grips
- Ice-shields
- Legs
- Flanges
- Flange bolts
- Climbing ladders
- Step-bolts
- Cross-braces
- Diagonals
- Torque / star-arms, mounts
- Z-brackets
- Clamps
- Support / mount pipes
- All nuts, bolts
- FAA lighting
- FAA required paint where applicable

MEASUREMENT

Measurements of each tower’s structural section members shall be measure-checked to verify information contained in the manufacturer-provided data. Only differences shall be noted in the report.

Each tower is to be measured from the top of the tower at the uppermost leg flange, to ground level, and from the tower’s top flange to the uppermost appurtenance.

Each antenna or other system mounted on the structure will be identified by its known make and model, or described using a like make model. Note the elevation above ground to each antenna’s mount base.

Each antenna mount is to be measured at its above ground location to the base of the mount, with the distance between the bottom and top bracket also noted.

****ADDITIONAL NOTE**

The actual height of the Boylston / Orwell tower is in question. It is believed to be a Rohn Model 80-Guyed. Some documentation indicates an elevation of 180 ft, while a recently obtained Rohn drawing shows its height to be 195 ft. Vendor must verify the true elevation, and if other measurements and examination indicates something different than a Rohn tower or what the Rohn- supplied drawing indicates, contact the Oswego County E-911 Department.

REPORTS

All conditions will be reported for each tower using a separate report, naming the site and tower description. All measurements for both the tower and its various appurtenances - including antennas and coax lines - will be reported on the report that, once completed, can be easily understood and read by a tower structural engineering firm for additional loading analysis. Any warranted or unusual observances or damage are to be digitally photographed, labeled and submitted with each corresponding tower inspection report.

NOTE:

During the mapping / measuring procedure, should any minor tightening be required the proposer is expected to perform such work and note same in their report. The plumbing and tensioning of guyed towers is not a part of this inspection mapping service. Guy tensions shall be taken and logged in the report. Should a condition be found that in any way compromises the structure, (such as loose guys excessive bows, cracked foundations, etc.), those conditions shall be documented in detail with photographs and a cost proposal to repair.

Any additions, changes or deviations to or from said specifications, contracts, plans, drawings, exhibits, or schedules will invalidate the agreement between the parties in its entirety unless in every case such changes shall be previously agreed upon by the parties hereto in consideration of all applicable legislation.
